Gorjan Radevski

Education

- 2024 **Ph.D. in Machine Learning**, *KU Leuven*, Belgium, [[Ph.D. Thesis](#)]
 - Research at [VISICS](#) (ESAT-PSI); Supervisors: [Prof. Tuytelaars](#) & [Prof. Moens](#)
 - Tech lead (with [FlandersMake](#)): Autonomous forklift with spoken language control [[Video](#)]
- 2019 **Master of Artificial Intelligence**, *KU Leuven*, Belgium
 - Graduated with distinction (Cum Laude); Co-curricularly top ~7% on [Stack Overflow](#)
- 2017 **Bachelor in Computer Science and Engineering**, *FINKI*, Macedonia

Working Experience

- Nov. 2023– **Research Consultant**, [NEC Labs Human-Centric AI group](#), Remote
 - Present
 - Large Language Models (LLMs): Multimodality; Reasoning; Agents; RAG; Steering
 - Led (ML & engineering) the LLM Explainer project (Best Value Award 2025) [[Link](#)]
- Jun. 2024– **Postdoctoral Researcher**, [VISICS Lab](#), *KU Leuven*, Belgium
- Oct. 2025
 - Multimodal Large Language Models: Evaluation; Efficient integration of modalities
- Oct. 2022– **Machine Learning Research Intern**, [NEC Labs](#), Heidelberg, Germany
- Feb. 2023
 - Models for linking open information extractions to knowledge graphs
 - Publication at **EMNLP 2023** [[Link](#)]; Granted patent [[Link](#)]
- Nov. 2018– **Machine Learning Research Intern**, [IBM Research](#), Zurich, Switzerland
- Mar. 2019
 - Models predicting chronic kidney disease 12 months ahead (AUROC: 0.93-0.99)
 - Publication at **Journal of Infectious Diseases** (h-index 282) [[Link](#)]
- Jun. 2018– **Machine Learning Engineering Intern**, [Luminovo](#), Munich, Germany
- Oct. 2018
 - Video classification pipelines for automating media workflows at ProSiebenSat.1

Research Experience

LLM Steering, Attribution & Reliability

Efficient controlling of multi-behavior LLM generation, grounding LLM answers in source context, and label-free calibration of model confidence under distribution shift.

- 2026 **Multi-behavior Steering of LLMs**, ACL (19.0%), [[Paper](#)] [[Video](#)]
- 2025 **Synthesizing Context Attribution Data**, ACL (20.3%), [[Paper](#)]
- 2024 **LaSCal: Label-Shift Calibration**, NeurIPS (25.8%), [[Paper](#)] [[Code](#)]

Multimodal Learning & Evaluation

Diagnosing failure modes in audio-visual models, distilling multimodal teacher knowledge into efficient single-modality models, and multimodal fusion for object-centric video understanding.

- 2025 **DAVE: Diagnostic Audio-Visual Evaluation**, NeurIPS (24.9%), [[Paper](#)] [[Code](#)] [[Dataset](#)]
- 2023 **Multimodal Distillation for Action Recognition**, ICCV (26.2%), [[Paper](#)] [[Code](#)] [[Video](#)]
- 2021 **Object-Centric Action Recognition**, Oral at BMVC (~3.5%), [[Paper](#)] [[Code](#)] [[Video](#)]
